

LOOKING AT AN INVESTMENT PROPERTY IN BRISBANE?

"My Dad was a client of Steve's for over 20 years and recently retired owning six houses and debt free. I am now also a very happy client of Steve's and wish I had listened to Dad 10 years ago when he suggested I talk to Steve."

Mark (Fitter)

The **secret** to success *is persistence*

SIMON REYNOLDS SAYS :

"DO YOU WANT TO KNOW THE SINGLE MOST IMPORTANT REASON THAT MOST PEOPLE DON'T ACHIEVE THEIR DREAMS? THEY GIVE UP TOO EARLY."

UNDERSTANDING THE AWESOME POWER OF PERSISTENCE.

Most people simply don't realise that consistent failure is a necessary component to achieving spectacular success. If you are not failing regularly you're either aiming too low, or not pushing yourself.

Colonel Sanders was turned down 1009 times before one restaurant bought his chicken recipe. Walt Disney got 203 rejections from banks until one said yes to financing Disneyland.

Thomas Edison is said to have had over 10,000 separate experiments before he succeeded in creating the electric light bulb.

The secret to success is persistence, persistence, persistence, persistence, persistence, persistence, persistence, persistence, persistence, persistence!

But make sure it's intelligent persistence – vary your methods, be flexible, think laterally. Then keep on going and going until finally success eventually give in and gives you what you rightly deserve.
